# LET IT GROW.

**kalé**

WTF IS KALE? AT FIRST, IT'S AN EPIC PLANT! SECONDLY, KALÉ IS AN ORGANIC BRAND, BASED IN LATVIA RESHAPING THE SNACKING INDUSTRY WITH 20+ PRODUCTS IN ITS PORTFOLIO, AND APPROACHING DIFFERENT PRODUCTION METHODS TO ROCK OUT THE EVERY LAST PIECE OF EVERY KALE LEAF USING ONLY NATURAL / ORGANIC ADDITIVES.

## WTF is Kalé?

We arrived at the scene by the experiment, starting growing a few plants of kale. It was few months before when the pandemic hit the world. We tested our first products in our kitchen with the blender we bought for our last cash.

As the experiments kept going and we were successfully hustlin our stuff through our Instagram account, we realized one thing. Our initials sticked together, stands for K.A.L.E. And we thought - Holy Kale! That's powerful.

Kale was here before Jesus. Beat this! Kale has a rich history that spans thousands of years. From its origins inthe eastern Mediterranean to its current resurgence in popularity, kale has remained a versatile and nutritious vegetable enjoyed by people around the world. Its long journey through history is a testament to its enduring appeal and health benefits, like richest source of Vitamin K, Iron and fiber.

Biodynamic agriculture is our approach to our kind of farming that emphasizes holistic,

regenerative practices and aims to create a self-sustaining and balanced ecosystem where everybody loves everyone. In 2023, we are growing more than 30 hectares of kale in 4 different countries.

We have around 20 products in our portfolio in 2023. We approach different production methods to rock out the every last piece of every kale leaf using only natural / organic additives. As you can see in the picture - we love animals and we find'em cool in life, not in a slaughterhouse. So, yes - our products are vegan.

We blend to make pesto. We age to make Kimchi's and fibres. We dry to make chips and spices. And we are doing that to make our products accessible to everyone. Before all the prizes in exhibitions, at first we want to see a happy and healthy youth. Youth that doesn't know about 3XL size pants in a 3rd grade. Youth that will be strong enough to take care of us, when we will be 70, drinking vegan - skin renewal beers in a rocking chair.

## The good stuff inside:

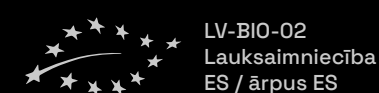

# Pesto

Our pesto's stronger than yours! We use only purest quality ingredients including yeast flakes a.k.a. protein bomb in our recipe, to deliver you mouth-blowing experience no matter in what way you use it.

# KALE PESTO

### 100g this stuff contains:

Energy value: 1061 kJ/256 kcal  
Fat: 21,4g including saturates 1,1g,  
Carbohydrates: 11.3g including sugars 6.9g; Protein: 4.1g  
Fibre: 2,1g; Salt: 0,04g

# Aged line

Fermented Kale. It's a new story in Northern European cuisine. There is a long tradition of pickling in Latvia. Respecting the ancient traditions and inspired by South Korean flavour combinations, we have created a Nordic Kimchi with an authentic taste. It is also rich in vitamins C and K, as well as selenium, fibre and many other vitamins. The high levels of antioxidants helps to prevent cell damage and keeps the body fresh and healthy. All these superpowers of aged Kale creates a ton of lactic acid lactobacteria which noticeably boosts your digestive system.

### 100g this stuff contains:

266 kJ / 64 kcal, Fat 0.73g from saturated fatty acids 0g, Carbohydrates 8.21g, common sugars 0g, Fiber 4.25g, Protein 3.93g, Salt 2.46g

# chips

Dehydrated Kale chips contains about 92% of it's starting nutritions. Not fried, but gently dried at 42 degrees so this stuff is totally RAW. No oil added, vegan of course, gluten-free and most importantly - gloriously rich in flavour. We use only organic and purest quality additives to make diffrent flavours for the chips. Just like love our chips doesn't know the borders. So they are loved from the kids with their first teeth, to seniors who still wanna look like Hulk Hogan!

**Let's talk  
business**

# Our farms

In 2023, we are growing **more than 30 hectares** of our stuff in 4 different countries.

During the wintertime in Latvia, Lithuania and Poland, we are collaborating with farmers in Spain to provide fresh harvest throughout the cold season here.

# Our partners

The largest cooperation partner for 2023 is Poland's largest organic farm, which grows and produces vegetables and products!

**They grow 15 hectares of kale specifically for us in 2023** and we can double it every year

# Our distributors in Baltics

→ SIA GEMOSS

**MAXIMA, GEMOSS, Spirits n Wine,  
LIVIN, and other little bio stores.**

# Horeca sector

→ **Cydonia Gastropub, Rozmarins,  
and they keep on coming.**

# After the launch

We immediately will start working with local partners.

**Virši, Streetburgers, Circle K, Narvesen, RIMI, TOP & ELVI stores.**

# After the launch

We immediately will start working with stores located at

**Sweden, Poland, Estonia, Spain, Malta, UK, UAE.**

**1300m<sup>2</sup>**

for all that production & experiments

# Scale the Kale.

We always dream big. And it's paying off.  
In the nearest future we are going to scale our export  
range throughout the Europe and Middle East.

In this map you can see the regions and countries,  
where we are ready to start our business and  
already have Memorandum Agreements.

**Denmark, Sweden, Estonia, Poland Germany,  
Spain, Portugal, Switzerland, Malta, Cyprus, UAE.**

RAW ORGANIC KALE

KALE PESTO  
(2 kinds)

KALE KIMCHI  
(2 kinds)

KALE CHIPS  
(5 kinds)

KALE JERKY

KALE POWDER

All our stuff is available  
in larger batches for Horeca sector.
